Scoops offers a delightful array of 32 flavors of ice cream that are sure to satisfy any sweet tooth. From classic vanilla to adventurous combinations, each scoop is made with love and the finest ingredients. We also offer in-house made chocolates and caramel apples that are sure to add a rich and decadent touch to your visit.

```
</p>
```

<p>

But that’s not all! Dive into our wide selection of novelty and nostalgic

candies, where you can relive your childhood favorites or try something

new from our candy wall, filled with a variety of treats sold by the pound.

Whether you're looking for a unique gift or a sweet indulgence for yourself,

Scoops has something for everyone to enjoy!

</p>

<h1>Our Handmade Chocolates and Apples</h1>

<p>

Scoops offers a broad selection of handmade chocolates and hand dipped
caramel apples and strawberries. Each chocolate is crafted with care,
featuring rich flavors and delightful textures that melt in your mouth.
Choose from classic milk chocolate, dark chocolate, and unique
varieties
filled with fun ingredients.

</p>

<p>

Our caramel apples are a favorite, made with juicy crisp apples and
dipped
in delicious caramel. Whether you prefer traditional toppings or nuts
and
chocolate, we have something for everyone.

</p>

<!-- CONTENT -->

<div class="about-content">

<p>

“Someday,” that was the day that Susan Kirk thought she would get the opportunity

to open an ice cream shop of her own. That day came when the perfect location

for the first Scoops became available in downtown Madison, GA.

</p>

<p>

Madison is a picture-perfect rural community once named America’s best small town.

Along the tree-lined streets, Madison had its share of history, culture, and recreation

but no ice cream shop. Hence, “Someday,” Ms. Susan’s vision of an ice cream shop

was one like none other.

</p>

<p>

From homemade fudge and chocolates to hand-crafted ice cream flavors,

Scoops became a favorite destination for families and sweet lovers.

Today Scoops continues to grow with multiple locations and franchise opportunities.

- *These pictures related to home page of my website.*

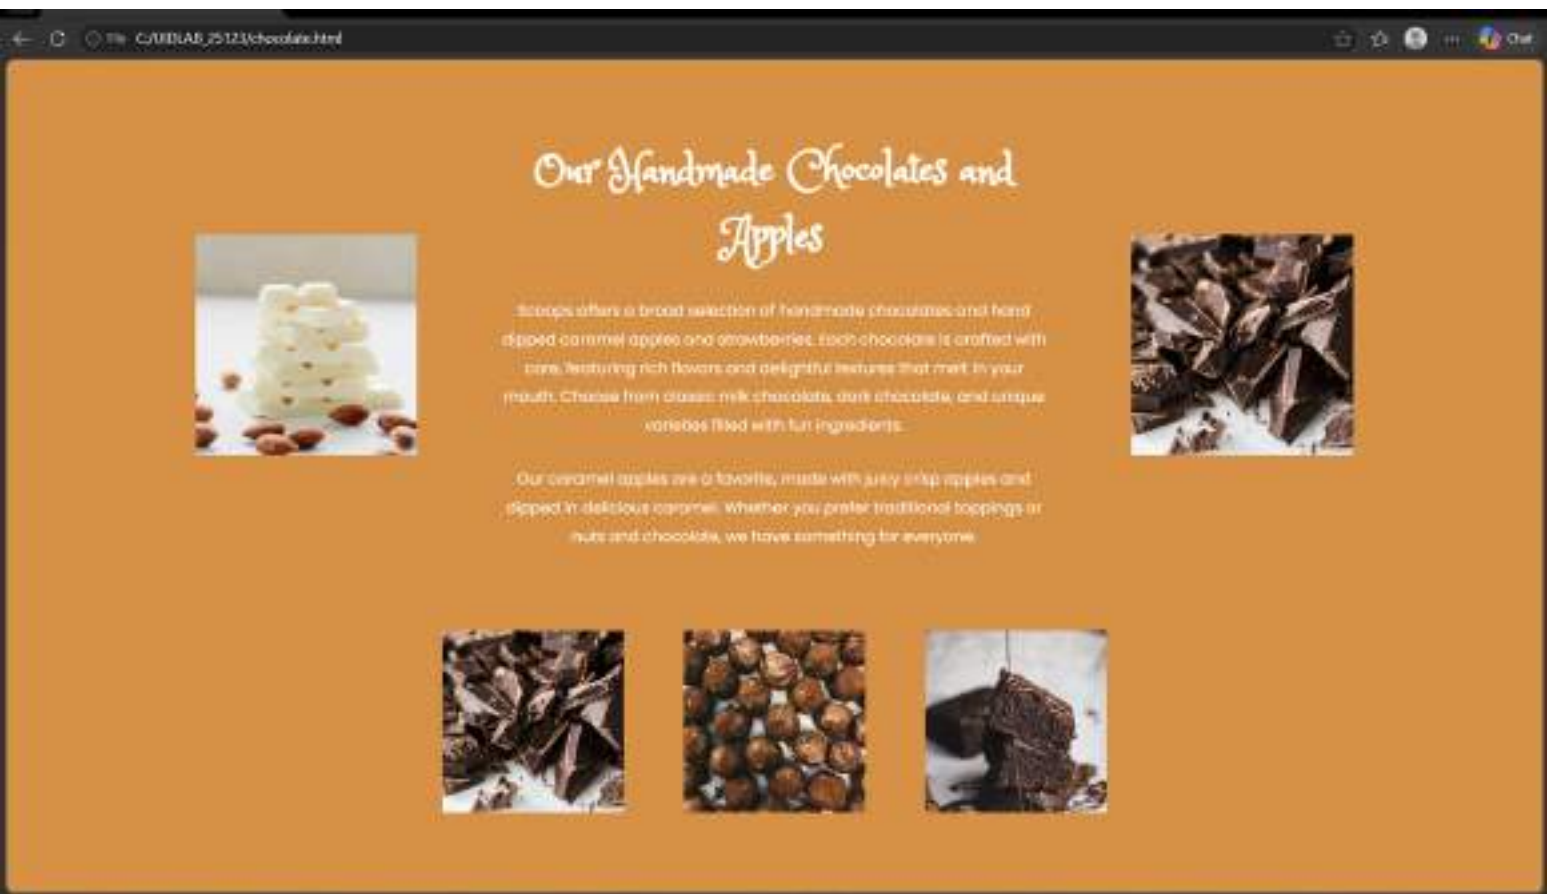

- *If you click on the icecream it displays like this..*

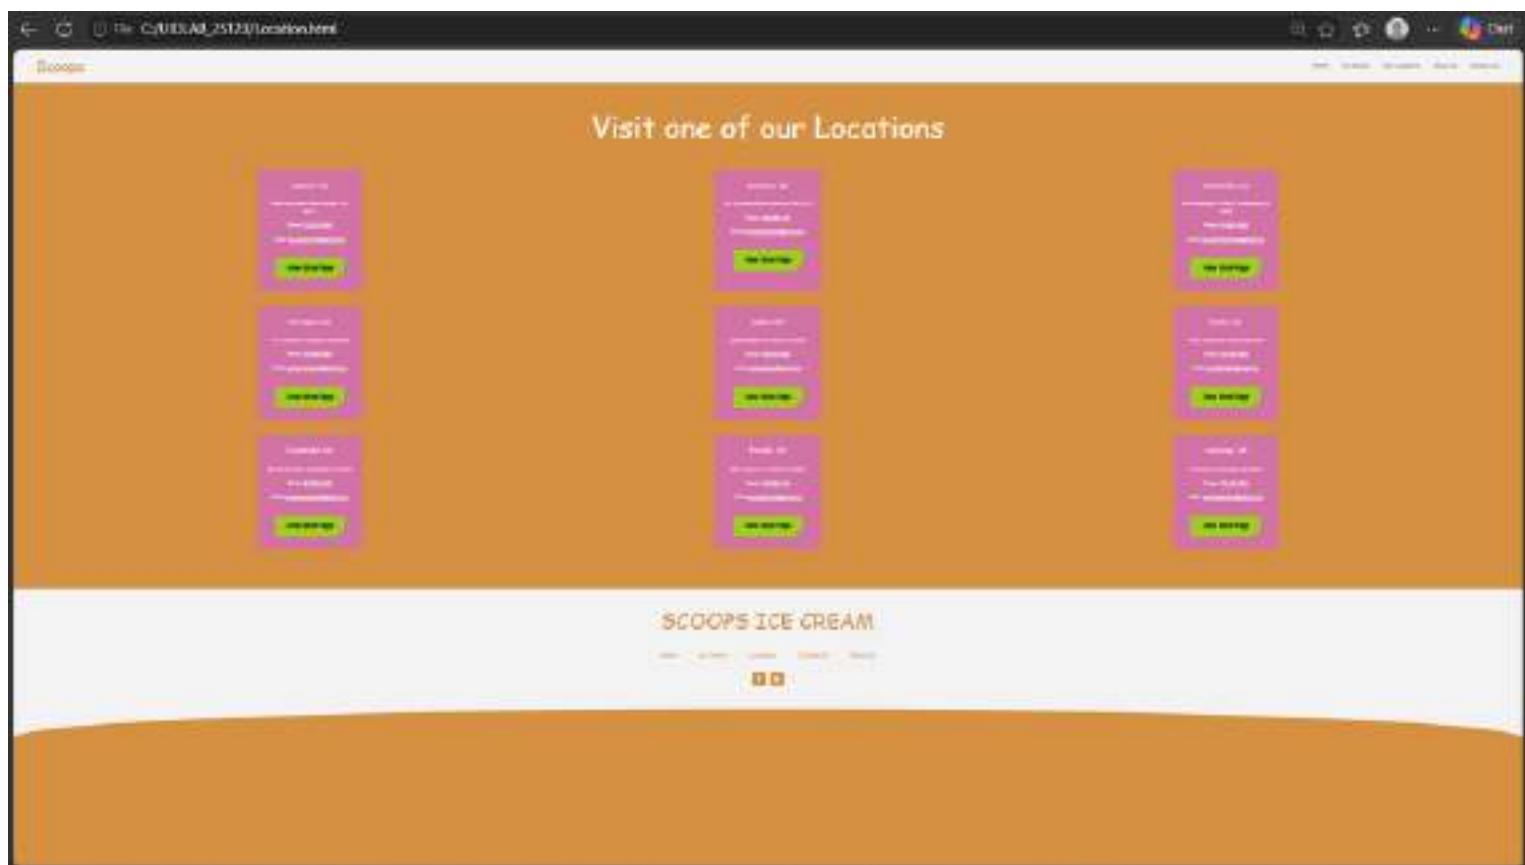

- *If you click on the chocolate and candy it displays like this..*

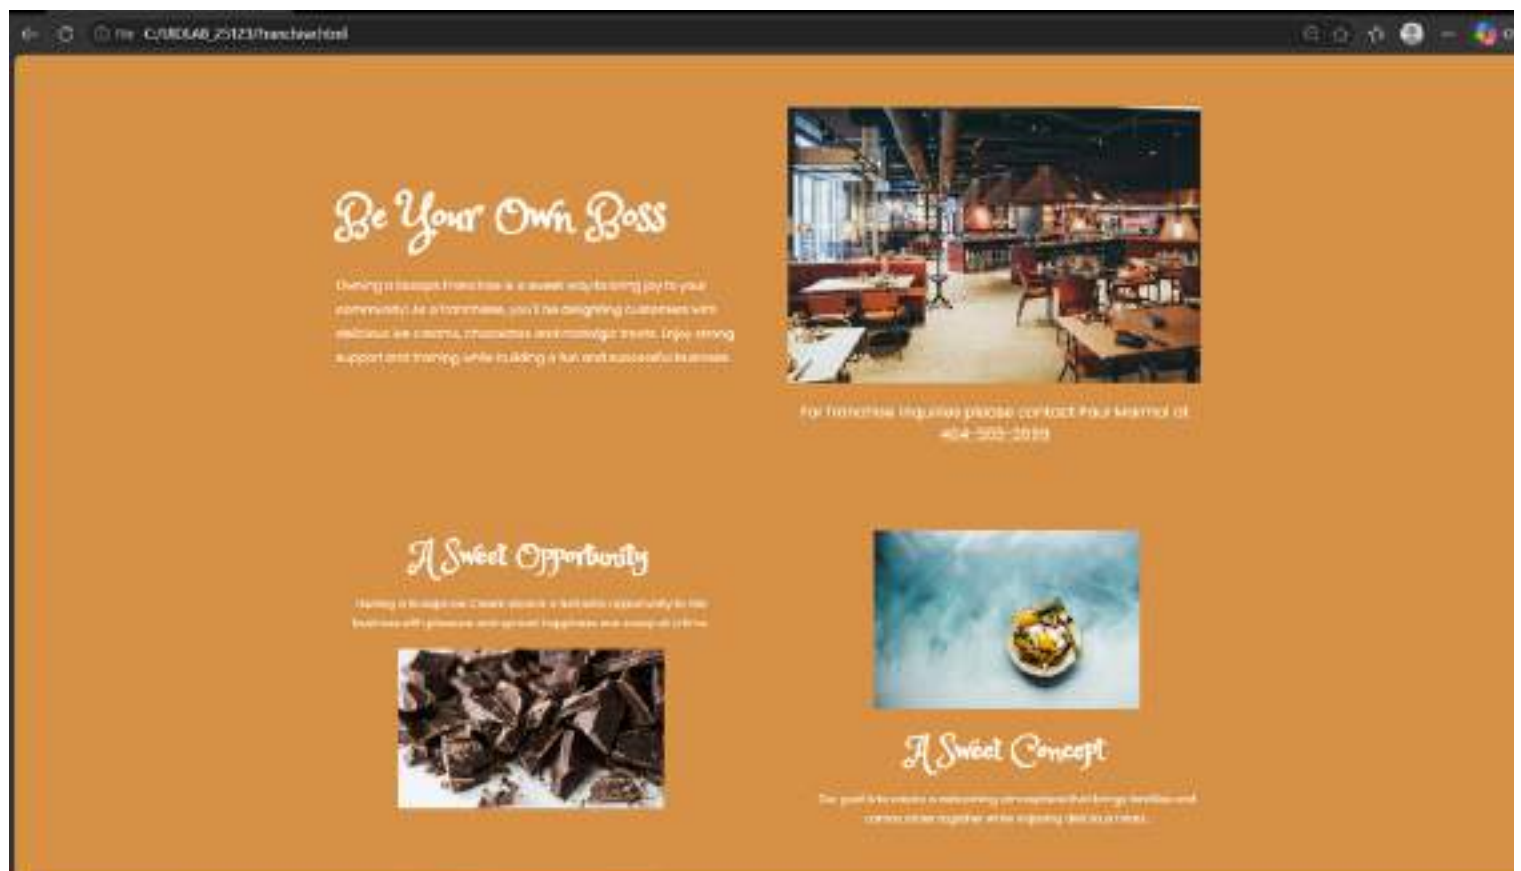

- *If you click on the locations it displays like this..*

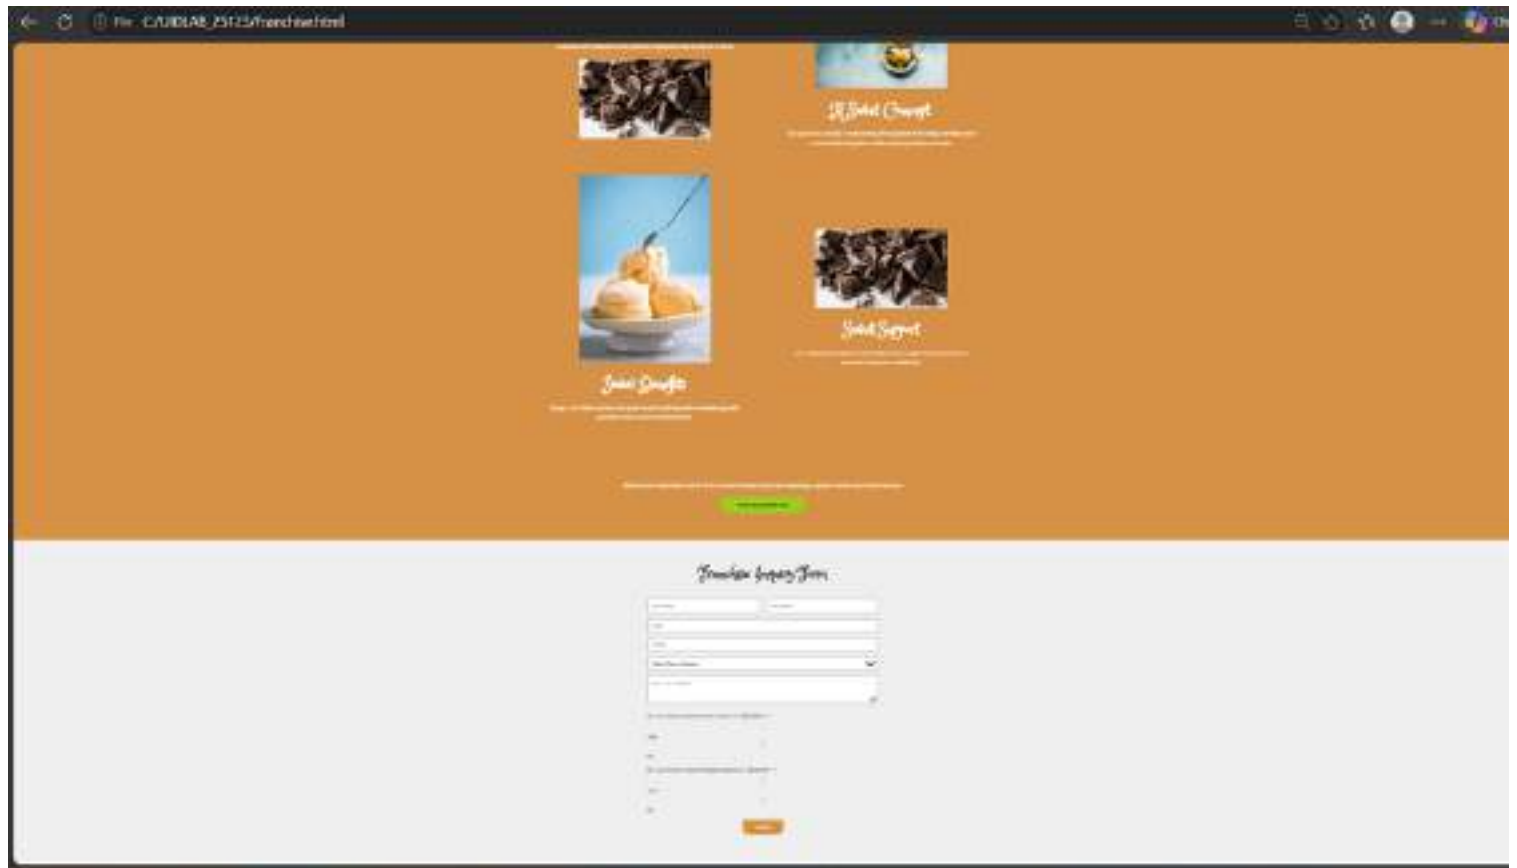

- *If you click on about us it displays like this..*

- *If you click on franchise info it displays like this..*

- *If you click on contact us it displays like this..*

Explanation :

This HTML and CSS code creates a complete Scoops Ice Cream website homepage with a modern and responsive design. The webpage is divided into several sections that help users explore the website easily.

1. Navigation Bar

The navigation bar is placed at the top of the page and contains the Scoops logo along with links such as

Home, Ice Cream, Chocolates and Candy, Our Locations, About Us, Franchise Info, and Contact Us. It uses a sticky position so that it remains visible while scrolling.

2. Hero Section

The hero section is the first section users see when opening the website. It displays a welcome message ("Welcome to Scoops!") along with a tagline. A decorative wave-shaped design is added at the bottom to create an attractive visual appearance.

3. Gallery Section

This section showcases the main product categories

offered by Scoops, including Ice Cream, Chocolate,

Candy, and Gifts. Images are displayed in a grid layout with hover effects, making the website more interactive. Two buttons are also provided for

finding nearby stores and exploring franchise opportunities.

4. Sweet Products Section

The Sweet Products section highlights popular items available at Scoops such as ice cream flavors,

handcrafted chocolates, caramel apples, candies, toys, and gifts. Circular images and descriptive text are used to introduce the products and attract customers.

5. Footer Section

The footer contains the website title, navigation links, social media icons, and a decorative wave design. It serves as the final section of the page and provides quick access to important website pages.

6. Responsive Design

Media queries are used to make the website responsive on tablets and mobile devices. The layout automatically adjusts image sizes, text sizes, navigation menus, and section spacing to ensure a good user experience on different screen sizes.

Conclusion

Overall, this code creates a fully responsive and visually appealing Scoops Ice Cream homepage featuring navigation, product showcases, promotional content, franchise information links, and a styled footer using only HTML and CSS.
